All Full and Associate Members (for information)

UPDATED LIST OF PORTS AND SEA AREAS THAT PROHIBIT DISCHARGES FROM OPEN LOOP SCRUBBERS

Action Required: *Members are invited to note the updated information on the list of ports around the world that have prohibited the discharge from open loop Exhaust Gas Cleaning Systems (scrubbers) and to forward it to their member companies for immediate attention. Members are also invited to update the Secretariat about any further information that they or that their member companies can provide on this issue.*

Members are aware of the IMO Global sulphur cap of 0.50% sulphur applicable to all marine fuels as from 1st January 2020. Members will also be aware that in addition to using compliant fuel to meet this requirement, there also exists the option to use “equivalent” compliance mechanisms in accordance with Regulation 4 of MARPOL Annex VI, one of which is the use of Exhaust Gas Cleaning System (EGCS) commonly known as Scrubbers.

In this regard the Secretariat had circulated MC(19)04 that contained an initial list, and MC (19)34 that contained an updated list of ports around the world that were identified as prohibiting the discharge from open loop scrubbers by ships visiting these ports.

Based on further related information from various administrations and feedback received from Members, the Secretariat has updated the list as provided below.

COUNTRY	PORT/SEA AREA	ADDITIONAL INFORMATION
Belgium	All ports	
Bermuda		
China	All ports and inland waterways	
	Bohai Rim DECA	
Estonia	Sillamae	
Finland	Porvoo	
France	Port Jerome	
	Seine River	
	Le Havre	
	Ambes	
	Montoir	
	Bordeaux	
Germany	Weser ports	
	Elbe ports	
	Kiel canal ports	
	Rostock

United Kingdom	All ports	No official prohibition. However, confirm with individual port authority before use.
United States of America	California	
	Connecticut	
	Hawaii	
	Florida	

Members are informed that the above list is intended to aid ships fitted with open loop scrubbers to plan in advance accordingly. In any case, member companies of ICS Members are recommended to obtain further clarifications from relevant authorities before their ships visit these ports. The Secretariat has been informed of hefty fines being imposed on ships that do not follow individual port requirements on this issue. Members are therefore encouraged to advice caution to their member companies in this regard.

Members are invited to bring this information to the immediate attention of their member companies. Members are also invited to update the Secretariat about any further information that they or that their member companies can provide on this issue.

Any further information or feedback regarding this matter should be forwarded to the undersigned (sunil.krishnakumar@ics-shipping.org)
